We'll be fine. Take care of yourself!

I got through most of the data on Friday. There was another 2 sets of Test America data and a bunch of new chemicals.

**Ex. 5 - Deliberative**

We also have an unknown residence with 60+ mg/l methane, so I've been contacting the state etc. to see if we can identify another of the  
Ex. 6 - Personal Privacy I may have to have Rob Helverson call Ex. 6 - Personal Privacy to figure it out...! But Rich Fetzer was going to contact the fire department to make sure the well is vented, but we don't know where it is!!

Just a normal Friday! Hope you are on the mend soon. Dave will be in this week to help Steve

Sorry, but I'm still dealing with the flu--better than last week, but not over the hump yet. (Yes, I did get a flu shot!) I do have a note from my doctor, which puts me back in the office Monday, and I'm pretty sure I'm not going to beat that..

I know my timing is not very good. I don't think I'll be very helpful remotely, either, at least not the next day or so. But of course, if you need to reach me, you can call me on my home number

**Ex. 6 - Personal Privacy**

I'm going to ask Bill to be Acting, since Karen is so engaged in the Dimock issue. I'll look to Karen to be our lead for Dimock and for the OECA videovisit on Wednesday.

Bill will be traveling to Delaware Wednesday morning, with George, Anthony, Bob Chominski, Jim Kern and some others, for our semi-annual meeting with the DE DHSS leadership folks. (I'm sorry to have to miss that this time around.) But I think Bill will be around otherwise.

Again, sorry for timing. I hope it's not too challenging a week.--Vicky
